# CONTENTS

*List of Abbreviations* .............................................. xiii
*List of Authors* .................................................... xv

**Introduction**

Eduardo G. Pereira ............................................. 1

**PART I. CONSIDERATIONS PRIOR TO ENTERING INTO A JOA** .. 3

Bribery Laws and Compliance

Dyfan Owen, Wei Wei Wang and Aaron Murphy ............................ 5

1. Introduction ......................................................... 6
2. Key Legislation and Instruments .................................... 6
3. Consequences ....................................................... 11
4. Managing Risk ...................................................... 15
5. Conclusion ......................................................... 25

The Relationship with Other Joint Venture Agreements

Jen Ackroyd .......................................................... 27

1. Introduction ......................................................... 27
2. Area of Mutual Interest Agreements .............................. 28
3. Joint Bidding Agreements ......................................... 32
4. Farm-Out Agreements ............................................ 36
5. Conclusion ......................................................... 40

Unitisation and Unit Operating Agreements

Eduardo G. Pereira and Giulia Carloni .................................. 43

1. Introduction ......................................................... 43
2. The Concept of 'Unitisation': Participating Interest, Track Participation and Unit Interest .......................... 45
3. The Inter-relation between the JOA and UUOA .................. 51
4. Distinctions and Clashes between the JOA and UUOA ........ 52

6. Ongoing Project Development ................................................ 152
7. Exclusive Operations .............................................................. 152
8. Withdrawal ................................................................. 153
9. Options for Petroleum Commercialisation ................................ 153
10. Environmental and HSE Issues, and Operator Liabilities .......... 154
11. Operator Liability ............................................................... 155
12. Unitisation and Joint Development Opportunities .................... 155
13. Decommissioning ............................................................... 156

PART II. SETTING UP A JOA ......................................................... 157

PART II.A. GENERAL CONSIDERATIONS .................................... 161

The Scope of the JOA

Harry W. Sullivan, Jr. ............................................................... 163

1. Introduction ................................................................. 163
2. Structure to Collectively Exercise Rights and Fulfil Common Obligations .................................................... 164
4. Participating Interests, Ownership, Obligations and Liabilities ...... 167
5. Government Participation ...................................................... 168
6. Cooperative Activities and Operations; Excluded Activities and Operations ...................................................... 170
7. Conclusion ................................................................. 171
Addressing Health, Safety and Environment Matters
Katie WINTERBOURNE ................................................................. 173
1. Overview ................................................................. 173
2. Drivers behind a Recent Focus on HSE in the JOA ....................... 175
3. Minimising the Risk of an HSE Incident Occurring ......................... 178
4. Responding to an HSE Incident .............................................. 183
5. Responsibility for an HSE Incident ........................................... 186
6. Conclusions ................................................................. 188

Insurance: What Should Be Insured, Who Should Be Liable For
It and to What Extent?
Birgitte JENSEN ................................................................. 191
1. Introduction ................................................................. 191
2. The Meaning of Insurance ................................................... 193
3. Liability and Insurance ....................................................... 194
4. OPOL ................................................................. 199
5. What Type of Insurance Should be in Place? .............................. 200
6. Contractor’s Liability versus Operator’s Liability ........................... 204

Transfer of Interest and Change of Control in JOAs
Michael POLKINGHORNE ........................................................ 207
1. Introduction ................................................................. 208
2. Transfer of Interest .......................................................... 210
3. Change in Control .............................................................. 215
4. Preferential Rights to Purchase ................................................. 218
5. Transfers in the Context of a Default .......................................... 227
7. Consent Provisions ............................................................. 235
8. Problems in Practice ............................................................. 237
9. Conclusion ................................................................. 245

Governing Law and Dispute Resolution Clauses in JOAs
Tuuli TIMONEN and Anaïs HARLÉ ........................................... 247
1. Introduction ................................................................. 248
2. Governing Law Clauses in JOAs ................................................. 250
3. Dispute Resolution Clauses in JOAs ........................................... 269
4. Conclusion ................................................................. 292
The Challenges of Implementing an Exclusive Operation
Eduardo G. Pereira .......................................................... 293

1. Introduction ........................................................... 293
2. Exclusive Operations Clauses ..................................... 294
3. Poor Drafting .......................................................... 296
4. Interaction with Joint Operations ............................... 297
5. Fragmentation of the Joint Venture and Governance of Exclusive Operations ................................... 298
6. Non-Consent Burden ................................................ 299
7. Operator Refusal ...................................................... 300
8. Buy-Back Rights ..................................................... 301
9. Interaction with Carry Arrangements ......................... 302
10. Government Involvement .......................................... 303
11. National Oil Company Involvement ............................ 303
12. Exclusive Operations in Frontier Environments .......... 304
13. Default ............................................................... 305
14. Unit Operating Agreement ........................................ 305
15. Civil Law ............................................................. 306
16. Concluding Comment .............................................. 306

PART II.B. CONTROL OF OPERATIONS AND EXPENDITURES .... 307

Authorising Work and Contracts: How is the North American System Unique?
David H. Sweeney ......................................................... 309

1. Introduction ........................................................... 309
2. The 'North American' System .................................... 311
3. ‘International’ Operating Agreements ........................... 319
4. A Comparative Analysis ............................................ 325
5. Success and the North American Model ....................... 329

Making the Default Mechanism Fair and Enforceable
Peter Roberts .......................................................... 331

1. The Consequence of Default ...................................... 331
2. The Definition of Default .......................................... 333
3. The Reaction to Default ............................................ 335
4. The Remedies for Default ......................................... 337
5. Interest Sales ........................................................ 339
6. Forfeiture ............................................................. 341
# The Relationship and Challenges between a Third Party Operator, the Joint Operating Company and JOA

**Syed Marzidy Syed Marzuki** .......................... 347

1. Operatorship ................................................. 347
2. Types of Operatorship ........................................ 349
3. Joint Operating Agreement .......................... 353
4. Operating Committee versus the Board .................. 354
5. Composition of Board Members ....................... 356
6. Cost Sharing under Different PSCs ....................... 357
7. Carried Costs ................................................. 357
8. Default .................................................. 358
9. Disputes and Litigation ...................................... 359
10. Budget ................................................ 359
11. Sole Risks ................................................ 360
12. Conclusion ................................................. 361

# Accounting Procedure: Can the Operator Make a Profit? How Can a Non-Operator Control the Costs of the Consortium?

**Syed Marzidy Syed Marzuki** .......................... 363

1. Introduction ................................................. 364
2. Fundamental Principle ...................................... 364
3. Exclusive Operations or Sole Risk ....................... 365
4. General Principle of Maintaining Accounting Records .... 365
5. Chargeable Expenditures .................................. 365
6. Direct Charges .............................................. 366
7. Indirect Charges ............................................ 369
8. Ways to Control Expenditure .......................... 369
9. Inventories ................................................ 371
10. Acquisition and Disposal of Material ................. 371
11. Marketing Rights and Fees .......................... 372
12. Conclusion ................................................. 372

# Senior Supervisor, Financial Cap and Other Restrictions on the Operator’s Liabilities and their Implications

**Leslie Weihua Zhang** .......................... 373

1. Introduction ................................................. 373
2. The Definitions of Senior Supervisory Personnel under the International Model JOAs .................. 375
3. What is the Real Meaning of Gross Negligence or Wilful Misconduct? .......................... 377
4. Limitation of Operator’s Liabilities under International Model JOAs ........................................... 381
5. Possible Impact of the BP Gulf of Mexico Oil Spill Phase One Trial ........................................... 383
6. A Comparison of Key Issues in the International Model JOAs ..................................................... 384
7. Conclusion ................................................................................................................................. 386

Secondment and Project Team: A Positive Mechanism to Support the Operator or an Effective Tool to Control the Operator?
Leslie Weihua ZHANG .................................................. 387

1. Introduction ............................................................................................................................... 387
2. Definition of Secondment and Project Team ................................................................. 388
3. Functions/Roles of Secondment Arrangement under the International Model JOAs .................. 390
4. Functions/Roles of Project Team Arrangement under the International Model JOAs .................. 392
5. The Process to Establish the Secondment Arrangement and/or Project Team ......................... 395
6. The Risks and Liabilities Allocation ......................................................................................... 397
7. Real Secondment/Project Team Clauses in the International Petroleum Industry Context ........ 399
8. Conclusion ................................................................................................................................. 401
